Skill Challenge

Skills: classifying, applying concepts

Decide whether each natural resource listed in the table is renewable or nonrenewable. Complete the table by placing a check mark beneath the proper heading.

Table 1 Classifying Natural Resources

Natural Resource	Renewable	Nonrenewable
1. Oil		
2. Living things		
3. Coal		
4. Air		
5. Water		
6. Soil		
7. Minerals		
8. Natural gas		

Name _____ Class Number _____ Class Period _____

Today's Special: An invasive Species

Read the article on the website and answer the following questions

1. What does ecosystem mean?

2. According to the article, what are two ways invasive species get into the country?

3. Why do the officials want to stop the Asian Carp from reaching the Great lakes?

4. People believe that the carp is native to that area. What effect does this then have on the people's decision?

5. What is the cause of the "Target Hunger now" campaign?

6. Summarize the article using strategies learned and reviewed in class.
